

Create Compelling Multimedia Content for Every Screen

Change text and backgrounds in seconds

Schedule your presentation to appear at regular intervals

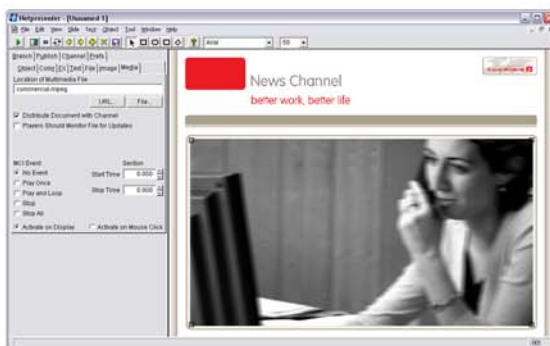

Create, Schedule & Broadcast Professional Multimedia

Netpresenter Editor allows you to easily create compelling multimedia content for any computer screen and digital signage, whether it's an emergency alert, message from the CEO or a commercial offer.

Serve video and slide shows to multiple groups on a pre-programmed schedule. By using templates you can control the look and feel of your communication.

Using the Netpresenter Player, you can display your content as an interactive screensaver or emergency alert broadcast, on a PC desktop, TV screen, digital display or kiosk.

Already Netpresenter is being used by corporate communication departments, government agencies and Fortune 500 companies worldwide.

Design a template for video playback
