Example Templates · Check out some examples to get inspired.....	41
Glossary · Explanation of relevant concepts.....	53

# INTRODUCTION

## About this guide

This guide helps you to pick the templates you would like to use with your Netpresenter Message Server, Alert Server or App.

If you want a custom design, please contact sales for more information.

## How to use the template guide

Browse the template guide to make a selection of the templates you would like to use. Write down the corresponding letters and numbers of each template. See the example below. In this case you would write down the letters **Ms** (A) and number **2** (B).

## Symbols

Templates with advanced features are marked with a symbol:

 Templates that can be customized using color themes

 Templates that are also available in portrait mode

 Templates that support an optional alert sound effect

### Example

Ms<sup>A</sup>  
Message  
Templates

# MS

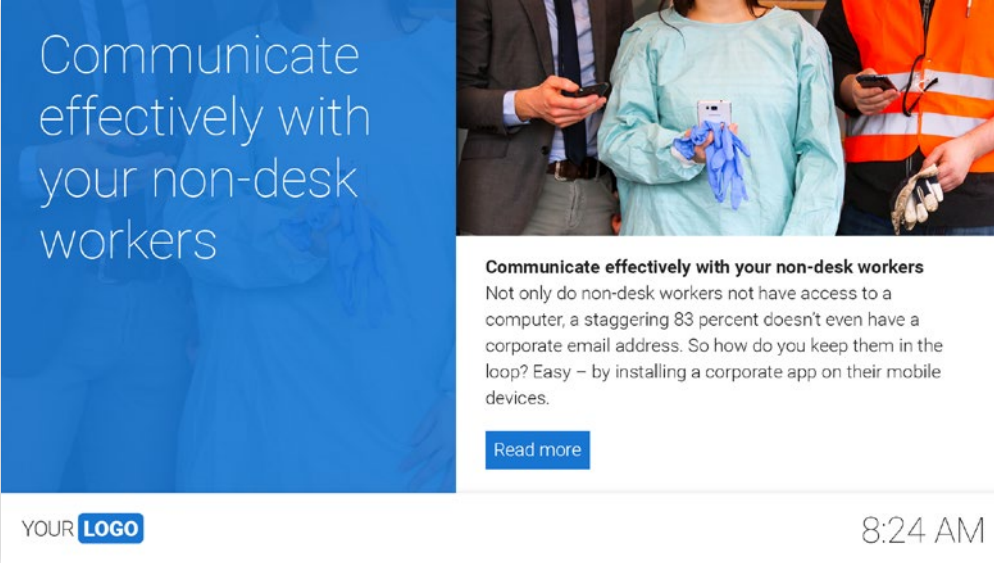

## Message Templates

Included by default in the  
Content Creator Pack

### Usage

The main purpose of Message Templates is to display a message or news item consisting of a title, body text and optionally one or more media objects. Most Message Templates can be flipped horizontally.

1

This message template features a large blue hero image on the left showing people in a professional setting. On the right, there is a white text area with a headline, a paragraph of text, and a 'Read more' button. The bottom of the template includes a 'YOUR LOGO' placeholder and a timestamp '8:24 AM'. To the right of the template are two circular icons: a color wheel and a mobile device icon.

Communicate effectively with your non-desk workers

**Communicate effectively with your non-desk workers**  
Not only do non-desk workers not have access to a computer, a staggering 83 percent doesn't even have a corporate email address. So how do you keep them in the loop? Easy – by installing a corporate app on their mobile devices.

### Hero title

Large title with message, extra title and media

2

This message template features a hero image on the left showing a hand holding an ID badge. The right side contains a list of four headlines. The bottom of the template includes a 'YOUR LOGO' placeholder and a timestamp '8:24 AM'. To the right of the template are two circular icons: a color wheel and a mobile device icon.

Remember to always wear your ID badge while at work

**Remember to always wear your ID badge while at work**

We know forgetting things is just part of being human, but it's important you have your badge with you at all times. Not only to identify yourself, but also to punch-in at the beginning of your shift or open employee-only doors.

- Remember to always wear your ID badge while at work
- Short training: new telephone system
- Now available: schedule of upcoming holidays
- Product launch has been moved forward to September
- Cybersecurity: always check links before clicking

Automatically integrate (real-time) date and time information via RSS, XML and API. Please note that some of our default feeds may not be available for your location.

# Ft

## Footer\* Widgets

### How it works

You choose 1 widget for each section. Most widgets can fit in all sections but the ticker for instance can only be placed in section B.

### \* Top or bottom

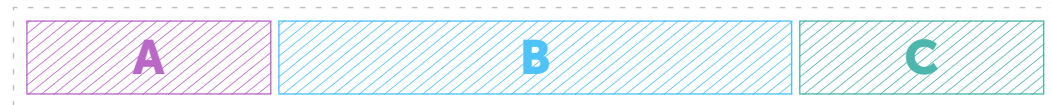

The 'footer' can also be used as a header, which means it is placed at the top of your templates.

### Localization

Our widgets are configurable to suit your language and location.

## Footer sections

The footer of your template is divided into three sections: A, B and C. You can select up to one footer widget for each section.

Footer divided in sections

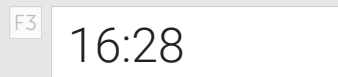

## Footer widgets

Your logo  
Any image can be placed

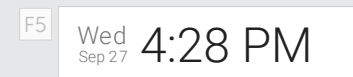

Weather  
Current weather conditions (C/F)

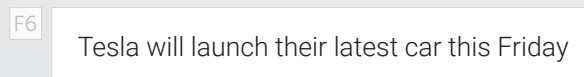

Clock 24hr  
Right, left or center aligned

Clock 12hr  
Right, left or center aligned

Clock & date (12/24hr)  
Right, left or center aligned

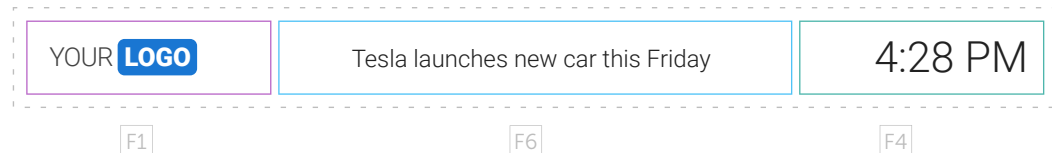

Ticker   
Display any RSS feed in a vertically or horizontally scrolling ticker

Weather, Clock & date (12/24hr)  
Right, left or center aligned

# AS

## Alert Server

### Making sure urgent messages are seen immediately

Alerts can be displayed on a wide range of devices, from mobile phones to digital signage screens.

Alert Types and scenarios give you the ability to quickly trigger alerts including certain predefined conditions, such as a color, icon and level.

Find out more about the possibilities and features in our [Alert Server Guide](#).

Example of a high level alert

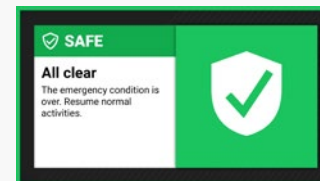

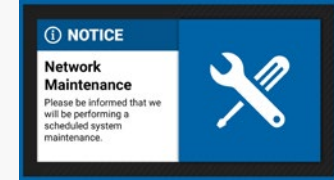

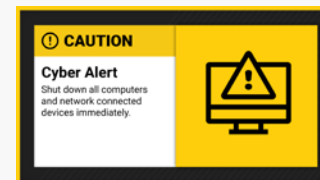

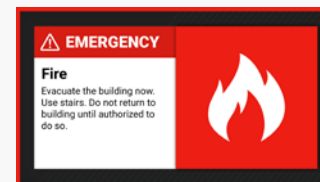

### Alert types

Based on ANSI Safety Color Codes

COLOR	ICON	TYPE	LEVEL
Red	⚠	EMERGENCY	HIGH
Orange	⚠	WARNING	HIGH
Yellow	ⓘ	CAUTION	MID
Green	✓	SAFE	MID
Blue	ℹ	NOTICE	LOW
Grey	🔑	TEST	LOW

### Example scenarios

These are some of the included scenarios in the Alert Server

### Usage

Designed to instantly grab any audience's attention using pop-up messages and highly effective alert sounds. Share breaking news – e.g. emergency situations or important employee updates immediately whenever, wherever.

# Cs

## Cybersecurity Templates

### Cybersecurity is more than just technology

We've created dozens of slides with useful information and practical tips to increase your workforce's cybersecurity awareness. From internet security do's and don'ts to recognizing phishing attacks, your staff will learn the basics on how to keep your organization cybersafe, daily!

Contact your sales agent or find out more about our cybersecurity slides on <https://security.netpresenter.com>

### Usage

Our free cybersecurity awareness pack contains full screen templates (PC and TV) and ready-to-use content covering topics such as phishing, ransomware, password policy and much more.

# Ct

## Color Themes

### Customize all colors

Templates that support Color Themes allow you to change the colors of your template.

### Using color themes

You can select, adjust or create a new color theme for your templates. The results are immediately visible through the live preview.

### Adding a logo

Add a logo to all your templates at once and/or a logo to each template separately.

### Responsive images

To optimize the size of your images the template will scale them automatically according to their aspect ratios.

[▶ Watch Color Themes tutorial video](#)

The diagram illustrates the customization of a template using Color Themes. It shows a sequence of steps:

- CUSTOMIZE ALL COLORS**: A circular callout highlights the text "A warm welcome to our new colleague Justine!" and "Please welcome Justine Phillips. Today, she will be joining our Marketing team. You can reach her at ext. 315. Justine is a mother of one (daughter Katie, 3) and Yoga enthusiast. She enjoys long walk on the beach during the weekend with her dog Jack." A blue button labeled "Read more" is also visible.
- ADD YOUR OWN LOGO**: A circular callout highlights the "YOUR LOGO" placeholder in the bottom left corner of the template.
- RESPONSIVE IMAGES**: A circular callout highlights the image of a woman in a blue denim jacket, showing a red double-headed arrow indicating the image's width and how it scales.

The main template preview shows a yellow header with the text "A warm welcome to our new colleague Justine!", a black body with the welcome message, and a blue button labeled "Read more". The image of the woman is on the right side of the template. A large white arrow points from the top-left callout to the bottom-left callout, and another large white arrow points from the top-right callout to the bottom-right callout.

### This Weeks' Smoothie

#### Banana, dates and coffee

The smoothie with banana, dates and coffee is a delicious smoothie that's also very healthy. The dates are important for both the taste and the health of this smoothie. Dates are rich in good energy, dietary fiber, vitamins, minerals and antioxidants. They are also low-fat and cholesterol-free too. Dates are simply delicious!

Remember to always wear your ID badge while at work

We know forgetting things is just part of being human, but it's important you have your badge with you at all times. Not only to identify yourself, but also to punch-in at the beginning of your shift or open employee-only doors.

Short training: new telephone system

Now available: schedule upcoming holidays

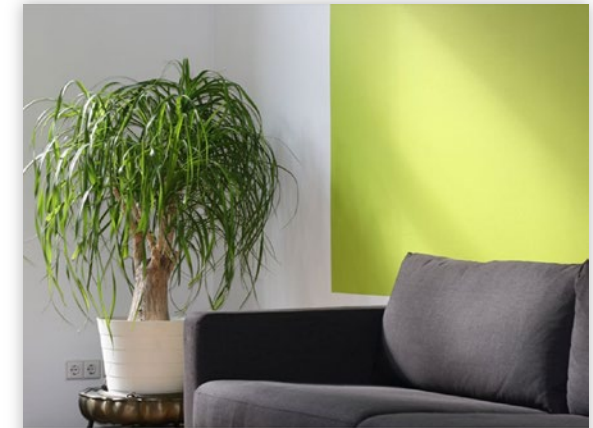

Remember to always wear your ID badge while at work

Product launch has been moved forward to September

Cybersecurity: always check links before clicking

# GLOSSARY

## **Adaptive Layout**

Depending on the added content, Adaptive Layouts will change the layout of the template. For instance: the gallery template can display 1 to 5 images and its layout will change accordingly.

## **Adaptive Text Field**

Adaptive Text Fields scale depending on the amount of content by either increasing or decreasing the font size and/or the field itself.

## **Alert Server**

Alerting software that can quickly send high priority messages to your staff.

## **Alert Scenario**

An alert scenario enables you to quickly select and send a predefined alert message. This preset can contain the alert type, message, image, sound effect and target area.

## **Alert Type**

Alert Types are presets that give you the ability to quickly trigger alerts including certain predefined conditions, such as a color, icon and level.

## **Color Theme**

Color Themes allow you to change the colors of your template.

## **Media Object**

A media object can be an image or a video.

## **Media Server**

The Media Server enables you to automatically extract content from almost any source (SharePoint, Excel, XML/RSS, social media) that otherwise would need manual input.

## **Message Server**

Content management software that enables you to display your messages on PC, TV and mobile devices.

## **Netpresenter App**

Keep your employees informed with company news, intranet headlines and alerts directly on their mobile devices.

## **Template**

A template defines the layout and design of your message or alert. Templates can have a fixed or adaptive layout.
