

Netpresenters' Communication Toolbox: *Why it Works*

Netpresenter's Enterprise Communication Toolbox consists of effective communication tools to keep your audience focused on what's really important. Eliminate distractions, gently inform your audience and alert them when necessary.

INFORM

Gently inform when you can. Constant repetition of your messages makes sure that they will not only be seen, but also remembered!

Achieve better results by managing the attention of your employees. Use our Enterprise Communication Toolbox to capture, maintain and manage your audience's attention – keep them focused on what's really important.

ALERT

Alert when you must. Being able to instantly alert and notify your employees can make all the difference in case of a critical emergency situation.

Use our all-in-one solution to protect everyone before, during and after an unexpected event. Make sure your staff heads to the nearest emergency exit right away by creating a message that simply cannot be ignored!

ELIMINATE DISTRACTIONS

Don't let distractions keep people away from your core message. The alternative for costly, time-consuming memos and e-mail-to-all.

Use our effective communication tools to provide employees with the latest company news and information, without distracting them. Reduce corporate e-mail SPAM and let your staff be more productive.
